## GOP Seeks Students For Staff

Local Republicans are assisting the Illinois Republican State Central Committee in its search for three qualified students to staff its summer intern program, according to Republican State Central Committeeman William A. Getz, 19th Congressional district.

The Dwight D. Eisenhower Memorial Summer Intern Program, now in its second year, was developed to offer young people a rare opportunity to study first hand the functions of a political party.

"We are pleased to assist the State Central Committee in the implementation of this exciting program," Getz said. "We want to further involve our young people in Republican Party affairs and to further acquaint them with the functions of a political party," he continued.

Miss Mildred Frisk, 10th district Committeewoman, is assisting Getz with program materials. Rules and entry blanks are available from Getz at 600 Third Avenue, Moline, 61265, or from Miss Frisk at 834-18th Ave., A., Moline, 61265.

Applications are to be accompanied by a 1,000 word essay on the subject, "How can we make political involvement more meaningful to our young people?"

The program is limited to residents of Illinois. To be eligible, candidates must have completed at least one year of college by June 15, 1970, and have at least one term of college remaining toward an undergraduate degree as of September 12, 1970.

Essays, accompanied by a completed entry blank, must be postmarked not later than midnight March 15, 1970, and mailed to Eisenhower Intern Program, Illinois Republican State Central Committee, 200 South Second Street, Springfield, Illinois 62701.

The three winners will rotate among the Committee's departments of Research, Field Operations and Public Relations. While assigned to Research, they will be headquartered in Chicago. While assigned to Field Operations and Public Relations, they will headquarter in Springfield. The Committee will underwrite lodging if necessary in either or both cities.

# Antioch Library Move To New Home Completed

There were no horns or noise makers and no band to play "Auld Lang Syne", but in one place in Antioch there was a ringing in of the new or more precisely a carrying from the old and bringing into the new.

On Saturday, Feb. 21 the Antioch Township Library moved from the old library into the new building.

This began a new period of history for the library, one that all of Antioch should be proud of.

On this day the library under the expert direction of its head librarian, Betty Lu Williams moved from the re-made old home into a beautiful new library.

The old library had long outlived its time and it was time to move, and just in time.

There was hardly room left to put another book in the old building and it was almost impossible to run a good library under the conditions that existed.

On Saturday morning a large

## St. Peter's OpenHouse On Sunday

Parents of our students/ area school administrators and public officials, including members of our state General Assembly and Senate, and the general public are invited to visit St. Peter's School on Sunday, March 1, from 1:00 to 3:30 p.m. as we join with all Catholic schools in the state of Illinois in "Open House" Sunday.

This unique and massive demonstration is to show the citizens and law makers of our state the tax bargain they are getting from the Catholic school system. St. Peter School saves the taxpayers approximately \$280,000 per year, based on the minimum state aid.

More than one-third of the 50 states are now providing aid for their non public schools, have legislation pending for such financial assistance, or have commissions studying such a program. The Pennsylvania legislature passed a bill to provide \$41 million to non public schools. Connecticut starts non-public financial aid this year. Rhode Island has allocated money to supplement salaries. Governor Ogilvie said that, "... (the state) must alleviate pressures upon the private and parochial school systems or face the dangers resulting from their collapse." Our state Senate refused to appropriate a single dollar in response to Governor Ogilvie's urgent request.

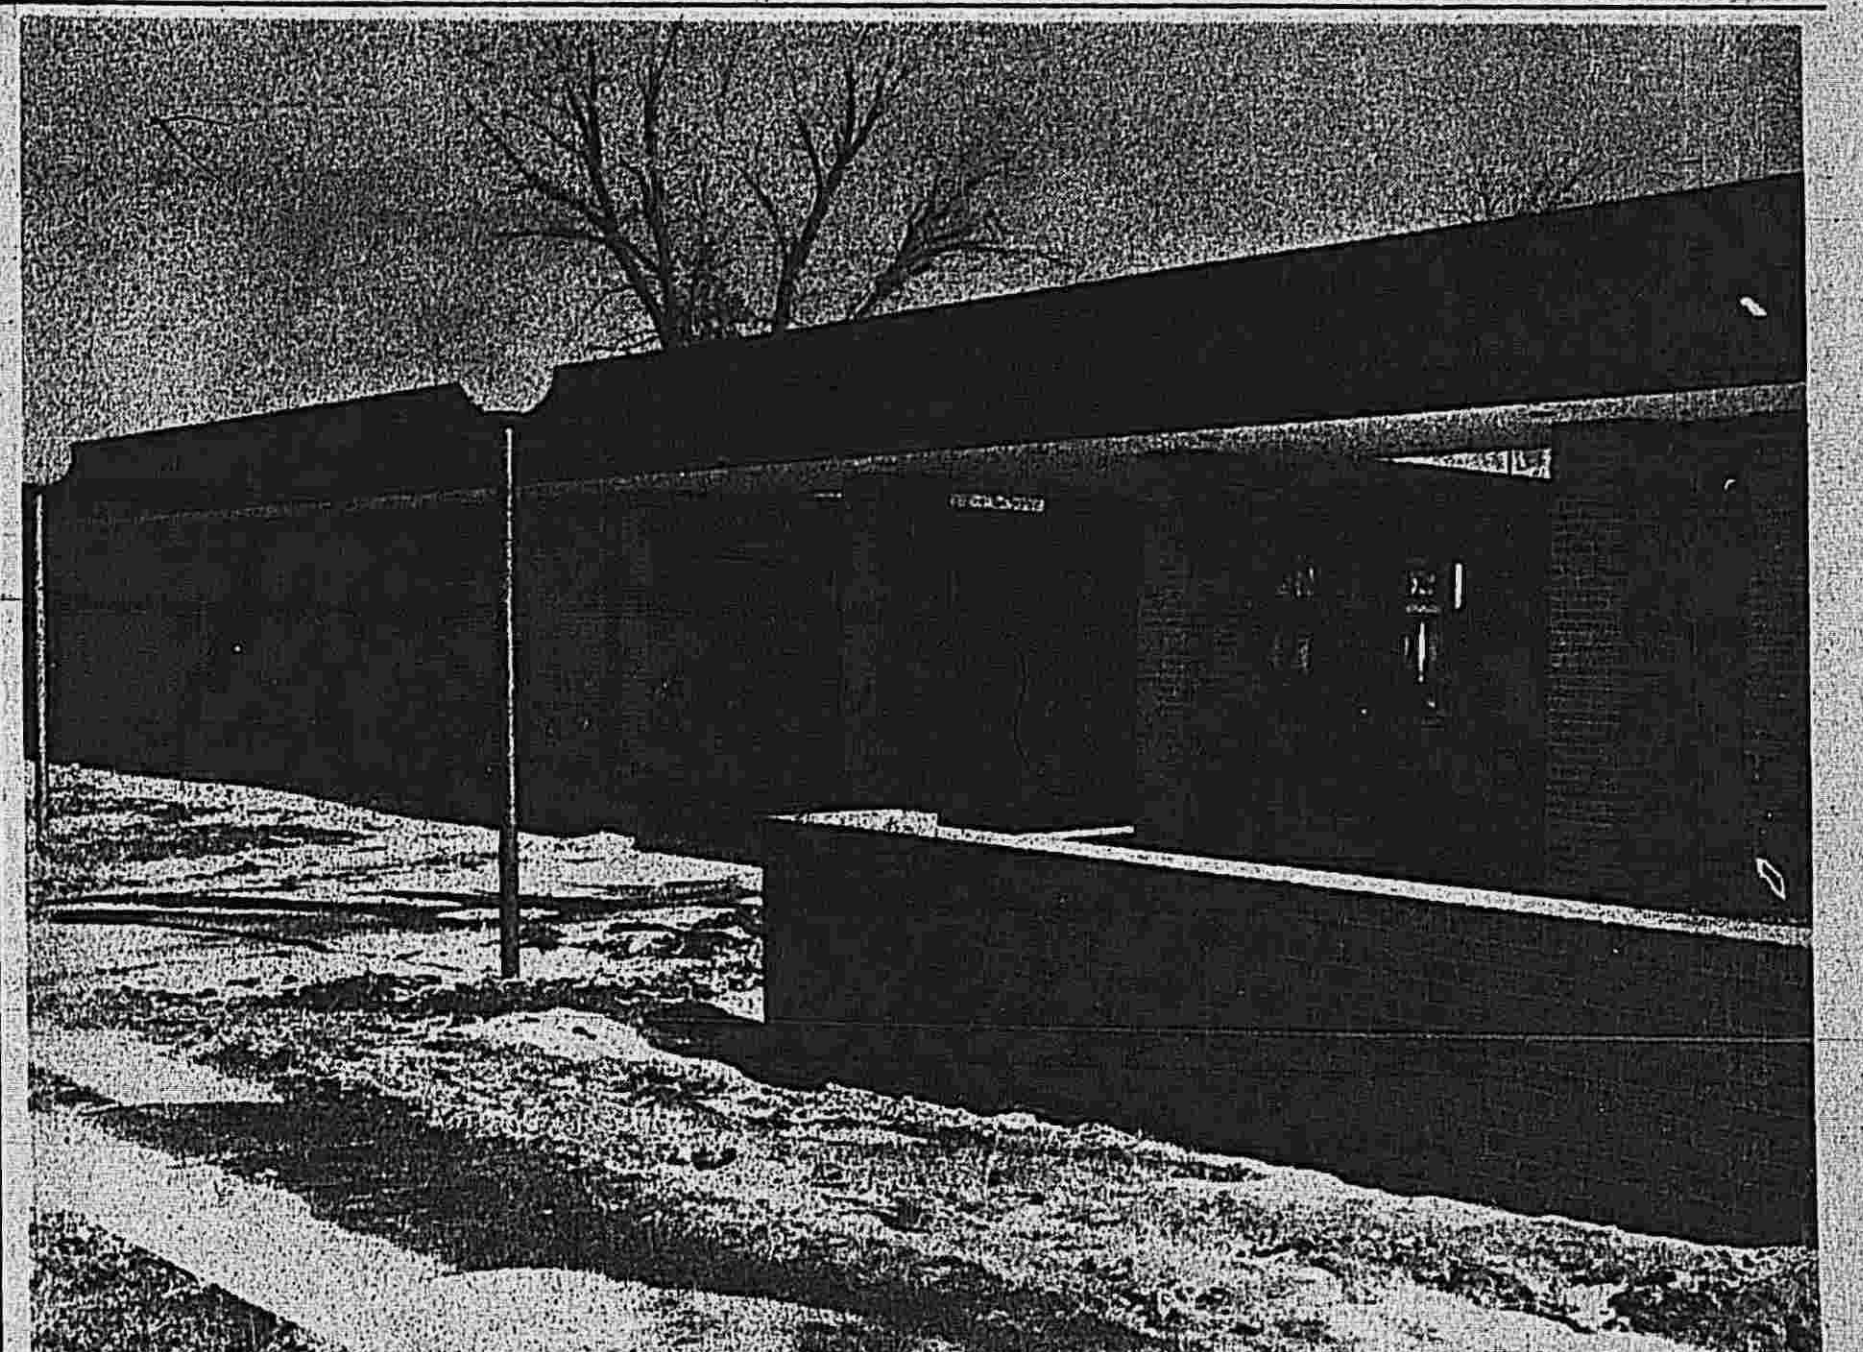

The members of the General Assembly will be running for reelection during the month of March. Parents have every right to ask them directly how they will vote when non public school aid legislation is introduced in April.

The success of "Open House" Sunday depends on the students sacrificing their Sunday afternoon and it depends on their parents, because we are asking the parents to see that their children's transportation is provided for on March 1st.

Let us hope that our participation in this demonstration contributes to our common cause. The success of the campaign for state aid depends on a high level of enthusiasm and support from our students and parents and the general public.

Income Tax Refunds

Nearly 250,000 taxpayers who have filed state tax returns will receive refund checks this week, according to Revenue Director George E. Mahin. Gov. Richard B. Ogilvie presented the state's first income tax refund check last week to Mr. and Mrs. William H. Herndon of Springfield. An estimated three million of the five million Illinois taxpayers are expected to receive refunds this year.

## Red Cross Goal Here Is \$1,700

Antioch Township's goal in the American Red Cross March Fund Campaign has been set at \$1,700.

The announcement was made by Preston Reckers, Jr., chairman of the 1970 Red Cross fund drive for Antioch Township. Reckers is an assistant vice president at the State Bank of Antioch.

Assisting Reckers in the Antioch drive will be Joe Beemsterboer and Walter Hankforth of Antioch V&S Hardware, as retail co-chairmen; Everett Otfedahl, Frostee Foam Co., industrial chairman; and Mrs. Harold Gaston, of the Antioch News, publicity chairman.

A new feature of this year's drive is that residential areas will be contacted by direct mail rather than by door to door solicitation.

The funds contributed here, Reckers said, "will be used to support the chapter's local services and to provide its share of financing the expanding national Red Cross programs, especially

services to the armed forces and veterans."

Antioch Township has had an average of 55 servicemen in Vietnam throughout the past year.

The main job of the Red Cross is not providing coffee and doughnuts to the servicemen. Red Cross first aid courses are offered throughout the country.

All members of the Antioch Rescue Squad were trained by the Red Cross and a training course is being offered right now in Antioch under the direction of Dan Dugenske. The number of lives saved through Red Cross training cannot be estimated.

The swimming courses, offered at the Antioch Aqua Center under the supervision of swimming instructors from the Red Cross are an example of another outstanding Antioch Red Cross program.

The costs of these lessons would be greatly increased if it were not for the help of the Red Cross. Red Cross first aid courses on water safety are also offered in the lakes area.

The Red Cross has been in action wherever disaster strikes, giving quick help and aid to those in need.

## Historical Group Hears From Expert

Members of the Lake County Board historical preservation committee met with a citizens advisory group Friday, Feb. 20, and heard a lengthy report and recommendations from a museum expert.

Lawrence Belles, executive director of the Evanston Historical Society Museum, has been acting as a consultant to the group regarding the establishment of a county-owned museum, possibly in the Butler Building at Lake-wood Preserve near Wauconda.

The group went with Belles on a tour of the facility two weeks ago and looked at some of the artifacts being stored in the Nike Site at Lake Zurich.

At Friday's meeting Belles lavished praise on the value of the Lake County museum collection. He said there is no doubt work will be needed to restore some of the items in storage because even in an operating museum the artifacts need constant care. "You do have a valuable collection," Belles told the group, "one that could draw 75,000 to 100,000 people a year to see it."

Belles outlined the steps necessary toward eventual opening of the Lake County facility. First priority on the committee's agenda should be to seek out a qualified director. He said a development program could be outlined for perhaps a five year period and projections beyond that goal.

The committee's feeling is that

## Vietnam Packages Readied

The Antioch Woman's Club fixed packages for Antioch area servicemen in Vietnam on Monday, Feb. 23 at the Scout House.

The ladies who participated included Mesdames Ray Toft, William Brook, Norman Jedele, Joseph Horton and Effie Nelson.

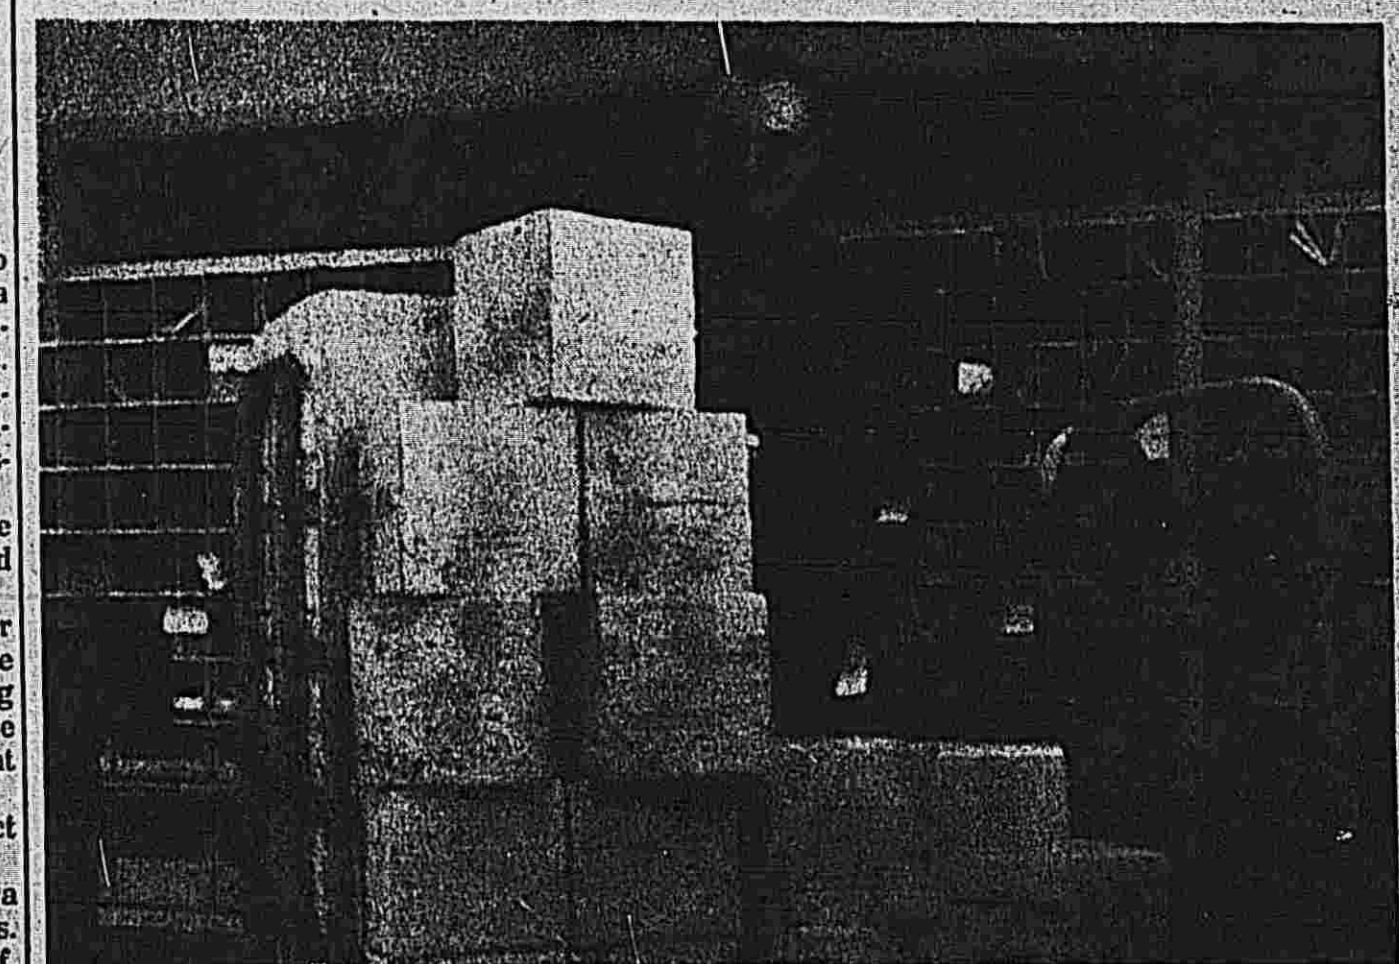

The packages were full of the usual supply of staples and goodies.

With each mailing the number of packages is decreasing. There are now only 36 on the mailing list. This is a marked decrease from past mailings last year at this time.

Recent donors to the Project Vietnam include:

Eugene Simonsen, Mrs. Laura Swanson, Mrs. Robert Hart, Mrs. Kenneth Young, Mrs. Langhoff, Mrs. Bywell, Ben Noble, Mr. and Mrs. C. Mair, Mr. and Mrs.

Thirty-six packages were prepared for mailing to Vietnam by the Antioch Woman's Club and are shown here being received at the Antioch Post Office by R. J. Dowland.

Antioch Mayor Ray Toft is presented with free samples of Girl Scout cookies which will be on sale from Feb. 27 through March 13. Delivery will be April 10 through 24. The girls are, from left, Becky Janka, Brownie Troop 180; Pat Hollman, Senior Troop 110; Kim Barlow, Cadette Troop 213, and Colleen DeVries, Junior Troop 144.

## EDITORIAL

## No Subsidy

Chicago is trying to do it to the rest of the state again.

This time it is in the form of subsidizing the Chicago Transit Authority.

It seems that the CTA doesn't have enough money to operate its system.

We say if you don't have the money either curtail the system or raise the rates.

But that is not what the CTA is doing. They want the rest of the state to subsidize the operation by the legislature passing a law to give the system money.

We fail to see where it is the duty of anyone outside of the CTA to pay anything for its operation.

We are sure that the legislature—in all of its wisdom—would not pass a law for the people of the state to subsidize a transportation system for Antioch, or any other community for that matter.

We are sure that if we proposed such a thing we would be told to either pay a big enough fare or decrease service or go out of business.

Now we realize that Chicago is a big city and we are just country cousins, so to speak. But we are tired of two sets of legislation—one for communities under 500,000 and the other for communities over 500,000.

That is the way the legislature sets up the bills that will just benefit Chicago and Cook County.

When we go to Chicago and want to ride the CTA we pay the fare demanded.

We feel that this is enough to take out of the pockets of the already overburdened taxpayers throughout Illinois.

## Support Needed

Once again the drive is on for funds for the American Red Cross.

We urge your support of this worthwhile organization.

The goal for this area is only \$1,700—a small amount when you consider that if every person in Antioch Township would give only fifty cents the goal would be easily surpassed with much to spare.

We don't think that this is asking too much for an organization that is "johnnie on the spot" when a disaster strikes and aid is needed.

There will be no door-to-door solicitation in the residential area this year and we are glad that this step has been taken. We feel that the residents of the area will give through a mail subscription just as well.

So when the request comes in the mail for you to give a little to aid the Red Cross—do it and do it generously.

The money is really needed and goes for worthy causes in this area.

## Letters to the Editor

Dear Sir:

Please accept this as an open letter of appreciation to the merchants and businessmen in the Lakeview Girl Scout Council area.

As adult volunteer in Girl Scouts, I've had the recent task of distributing Girl Scout Cookie posters and also of enlisting cookie promotional aids of the various businesses in the Lakeview Council area. I cannot begin to list all of those who have co-operated or to write to each on a letter of thanks, but in the council area, which includes Antioch, Fox Lake, Grayslake, Gurnee, Lake Villa, Libertyville, Lindenhurst, North Chicago, Round Lake, Waukegan, Winthrop Harbor and Zion, I have had a warm and rewarding experience. People were warm and responsive. The very few refusals in aid that I have received, were given in a courteous manner and the reasons were usually justifiable.

After reading day after day in the headlines of the crime and pollution, war and the negative side of the news, it truly enlightened me and warmed me to see that the good and wholesome attitudes of people far outweighs the evil and I cannot let it pass without some word of appreciation. It was a refreshing experience. To all those who extended a helping hand, my sincere thanks.

## Sandra Isaacson A Real Valentine

St. Stephen's Church was the setting Valentine's Day when Sandra Isaacson and Richard M. Milnes were married by Rev. Laurin in a double-ring ceremony.

The bride is the daughter of Mr. and Mrs. Carl Isaacson of Rt. 2, Box 131B of Antioch, and the groom the son of Mr. and Mrs. Peter Milnes of Cleveland, Ohio. The bride chose a floor length gown of white chantilly lace over a bodice fashioned with a scalloped neckline and long lace sleeves. The skirt was tiered and bouffant with chapel length train-headpiece high over a crystal crown highlighted by an imported illusion bouffant veil.

The bride was attended by Kathy Brueggemann and her sister Lynn, while the groom chose

Art Grieg as his best man and Ricky Berndt and Drew Isaacson, a brother of the bride, as groomsmen.

The bride's attendants chose floor length gowns of ruby velvet and ice pink satin, and carried heart shaped bouquets of baby pink carnations. Renee Singleton was the flower girl for the ceremony.

A reception was held at the Lorenz's Smart Country House and the young couple spent their honeymoon at Lake Lawn Resort.

### IN MEMORIAM

IN LOVING memory of our dear son and brother, Bill Hazel, who passed away Feb. 24th, 1969. One year has passed since that sad day. The one we loved so much was called away. The call was sudden, the shock severe, with little thought that death was near. Only those who have loved and lost can tell the pain of parting without farewell. While our dear one rests in heavenly peace, his loving memory we shall always keep.

Highlights of the 10th District American Legion Auxiliary Meeting, held in the Gurnee Legion Home, on Feb. 19th, was the excellent speech given by Mayor Richard Foss of Mundelein on Americanism. In his talk, the Mayor gave his definition of the meaning of the "Pledge of Allegiance" as it applied to everyone's daily life.

The third major program of the American Legion Auxiliary is that of Child Welfare. In a desire to honor the living, Mrs. Dorn presented a Child Welfare Plaque to the 10th District, which is in honor of her mother, Mrs. William O'Neill, Lake Forest, a Past District President. This plaque will be awarded the unit having the finest year round child welfare program.

In attendance at this District meeting were Mrs. Ray Rathmann, Mrs. Frank Kennedy, Mrs. William Dowden, Mrs. Bernard De Vries, Mrs. Walter Hills and Mrs. Joseph Horton from the Antioch American Legion Auxiliary No. 748.

### CHRISTIAN SCIENCE CHURCHES

The Lesson-Sermon to be read in all Christian Science churches this Sunday on the subject of "Christ Jesus" begins with a golden Text from Luke: "The Son of man is come to seek and to save that which was lost."

One of the passages read from Science and Health with Key to the Scriptures by Mary Baker Eddy, explains the Christian Science interpretation of the title, "Jesus the Christ," as follows: "Jesus is the name of the man who, more than all other men, has presented Christ, the true idea of God, healing the sick and the sinning and destroying the power of death. Jesus is the human man, and Christ is the divine idea; hence the duality of Jesus the Christ." (p. 473).

The public is welcome to attend services at 11 a.m., at First Church of Christ, Scientist, BEACON HILL, Rte. 173 & Harden, Antioch, Illinois.

## Remember When?

By Sally

I know there's a lot of talk these days about how wonderful it is for the kids in this modern world—and I'll grant there is a lot of truth in the claim. . . . However, there are times when I'm filled with consuming pity for them.

Say what you will, a lot of them are being sadly jipped. . . . Take the kids now living over in England. . . . Have you heard what is now being done to them? It's terrible—and, at such a time, I find myself wishing I were among the really important people of the world who, once they speak out, are widely quoted—and folks in high places actually tremble. . . . But, I realize that any opinion of mine would never be aired over the dinner table when a family gathering is held in Buckingham Palace. . . . So be it. . . . I still console myself with the idea that I do have a few loyal readers who will go along with what I have to say today—and now to say it.

Back to the question of what the English kids are in for these days. . . . According to an article I just read, the bakers in that country are resorting to—as they term it—"the sweet smell of deceit." . . . This is accomplished by spraying their shops with the fake aroma of freshly baked bread. . . . Now, I ask you how do you like THAT for jipping the poor unsuspecting kids. . . . And think for a moment, if you will, what a devastating effect this could have on their entire outlook on life if, quite by accident, one should hear a jolly baker laughing up with his colleagues as he described the reaction of the little tykes as they waited in line in his shop—tiny noses twitching and each one drooling in the manner of a famished St. Bernard.

Or, perhaps that isn't the reaction he'll witness. . . . But, remembering my long ago childhood, I'm inclined to think that is the way it will be. . . . After all, that fake aroma is reported to be so close to the real thing that it has fooled experts by the thousands.

And, that brings me up to the subject of "the real thing"—as it was produced by my mother—

A group of data processing specialists from Illinois and Michigan met Thursday and Friday in the Lake County administration building to discuss and prepare computer election programs for the upcoming primary election on March 17.

The Lake County department hosted the two day session, during which representatives of International Business Machines, Inc. lectured on program techniques.

Dwight Magalis, head of the county data processing department says his staff is ready for the primary. He is predicting final results of the various contests by 11 p.m. election night. Traditionally there is a light turnout for primary elections in the county. Magalis says the average is about 28,000 ballots cast out of approximately 140,000 registered voters.

State Senator Karl I. Berning of the 32nd District says he believes the abolition of Township government would be ill-advised and short sighted.

Speaking on the weekly radio series "This Week In Lake County" Senator Berning commented on proposals presented before the legislative committee of the Illinois Constitutional Convention during public hearings recently. Berning, a former chairman of the Lake County Board of Supervisors and county treasurer, said, "The township provides significant service and it can be improved. I am a strong supporter of retaining government as near to the level of the citizen as possible. The township, municipality, and county is an integral part of this local governmental control."

On the prospect of abolishing elective county officials except for an executive and members of the county board, Berning said he bitterly disagrees with the concept. "I do not believe," he said, "that making these offices appointive is in the best interests of the citizens. I favor elected county and state officials."

On the outcome of the convention itself, the senator said he hopes con-con will provide alternatives to the various articles so the people will have a real choice on adoption of a new constitution.

(Continued from page one)

June 15. Their terms end on September 11.

Six runners-up will be awarded one-month internships at the Everett McKinley Dirksen Congressional Leadership Research Center in Pekin, Illinois, the summer of 1971 when the Center will have been almost completed. The runners-up will serve as assistants in the Department of Archives through the cooperation of Pekin Mayor William Waldmeier, a member of the Center's planning committee.

They will assist the Chief Archivist in processing the official papers of the late Senator Dirksen, as well as those of other Congressional leaders of the past 38 years.

The Republican State Central Committee also will provide lodging for the runners-up in Pekin.

"We consider this year's theme topic particularly relevant in these times. The youngsters participating in our summer intern program will be among future Republican leaders in this state," the Committeeman declared.

A distinguished panel of judges is to be announced at a later date, according to the Committee officers.

## Handbook Available

The 1970 Illinois Agronomy Handbook has just come off the press and may be secured at the office of Extension Adviser Ray T. Nicholas, on the Lake County Fairgrounds. This 60 page book, which was prepared by several specialists in the Agronomy Department, is one of the most complete up-to-date sources of the latest information on corn, soybean and small grain production; hay silage, and pastures; soil testing and fertility; soil management and tillage; and weed control. Unlike most publications, which are distributed free, there will be a 25 cent charge for the Agronomy book.

Purchase of nearly 35 acres in the Ryerson Conservation Area highlighted a meeting of the Lake County Forest Preserve District Commission on Thursday, Feb. 19. Cost of the land was \$26,000. However, E. Kenny Harlan, chairman of the land acquisition committee, said it is expected the federal government will reimburse the district for half the price under the open space program. Just this month the district received a check for \$16,549 in federal matching funds for another parcel in the Ryerson designation which was purchased earlier.

In other action the commissioners approved purchase of over \$42,000 in heavy equipment to be used in connection with development and maintenance of the preserves. Largest items included a crawler-loader at \$16,295 and two tractors for \$10,800. Both bids went to North Side Tractor Sales of Wheeling.

Commissioners approved a motion by Norman Geary that the County purchasing agent be consulted on future purchases of equipment and supplies when the cost of such items will exceed \$1,500.

District President Ernest W. Minter reminded commissioners that Thursday's session was the last regular meeting of the year. He thanked them for their cooperation and hard work during the past twelve months. The re-organizational meeting of the commission will be held in April. Normally there are only six regularly scheduled meetings of the Forest Preserve District each year, on the third Thursday in June, August, September, October, December, and February.

## Antioch Library...

(Continued from page one)  
number of adults and students began the job of moving a library.

They moved books, filing cases, desks, books, tables, books and books, and more books.

A big job, but one that Miss Williams, her staff and the library board had been looking forward to for sometime.

By 2 p.m. that afternoon the last book was out and into the new building. The job of putting everything in order remains and not until March 9 will the new building be open to the public.

Sometime later this spring or early this summer a grand opening is planned when all the new equipment ordered is in and Betty Lu and her staff have had time to work out the bugs of running a new library.

When the public visits this new building they are going to find a beautiful new building both inside and out. One that has lots of room, well lighted, very quiet, and a joy to be in.

In fact Antioch can boast of having one of the best libraries in Lake County. Be sure to plan to visit it. There isn't another place that can compare in all of Antioch.

Miss Williams, her staff and the library board would like to thank the many persons who helped on moving day. This was a big and important job, one made a lot easier by all the wonderful help.

The following is a list of most of the people who helped on moving day:

Boy Scout Troops: No. 91, Mr. Price, leader; No. 92, Mr. Edwards, leader; No. 80, Mr. Ipsen, leader.

Merry-Go-Round Bakery, for the refreshments.

Mr. and Mrs. Hansen, Mr. and Mrs. Masek, Mr. and Mrs. Rush and their boys David and Gary, Mr. E. Westlund working for the Rescue Squad, Mr. and Mrs. Good and their girls Laurie and Colleen, Mr. Lasco and Son working for the Antioch Country Club.

The Meuter Girls, Ken Scheske, Jim Bloss and Joe Vivona working for the State Bank, R. Ohlgen, Mrs. Stove and daughter Debbie, Nevitt Girls, Kathy Mallory, Mrs. Petty, Mrs. Vos, and Mrs. Olson, Library Board, Diane Larson, Mr. Lagerstrom, Rick Klean, Mr. and Mrs. Parker, and Jim Fisher.

There have been several monetary donations made recently for various needs of the new library. At a library board meeting Tuesday, The First National Bank donated \$1,000 to be used for landscaping at the library site.

# Sequoits Conference Co-Champs

In their last conference game of the season, the Antioch Sequoits beat Wauconda 85 to 69. The game was close till the 4th quarter, when the Sequoits went on the warpath for 31 points.

Two seniors, Jeff Sterbenz and Jim Polley were the heroes, as each came through with some fine play. Jeff led all scorers with 26 points and was the top rebounder in the game with 15 grabs. Jim Polley playing for the foul-prone Keith Bolton, tallied 12 points and was effective on boards as he grabbed 7 rebounds. The second half also saw a new face in the Sequoit line-up. Looking for added help in ball handling, Coach Andrews called up Freshman Tim Micure. After Steve Bentel fouled out with 17 seconds left in the 1st half, Tim entered the game and played the entire second half. He proved to be a big help, as Wauconda began pressing in the fourth quarter. On several occasions Tim made passes to open teammates for easy lay-ups. During the second half, the freshman player had 8 assists.

The team scoring was well balanced, as the Sequoits had five players in double figures. Wauconda also had good scoring balance, as they had four players in double figures.

The two teams played on even terms until the fourth quarter, when the Sequoits went on their warpath. The quarter opened with Antioch leading by four,

54-50. Then Sterbenz hit a jump shot, followed by a free throw. This was followed by a lay-up by Bolton, a short jumper by Tom Martin and another short jumper by Bolton for a 63 to 50 lead by the Sequoits. The Sequoits had the upper hand the rest of the game. During the quarter Martin played some brilliant basketball and helped the scoring with four baskets.

The Sequoit coaches were in-

formed with about 6 minutes left in the game that Grant had upset the Lake Forest Scouts. The information was held back from the team as the coaches wanted the team to play out the game in relaxed style. "We were doing all right in the fourth quarter, we didn't want anything to change the players' mood, so we decided to hold off the good news until the game was over for sure," commented Coach Andrews. But

Spitzer lead a balanced Royal attack with 23, Ron Dunlap had 22 and Al Zetsche netted 20. Joe Franklin with 33, and Max Walker's 26 were high counts for the Mods.

## Salem Wins Crown

Salem Consolidated Falcons behind a tough defense and a deliberate attack, edged Brookwood by a 23 to 21 count, before a capacity crowd. Both teams entered the championship contest with a perfect 8-0 record, in a game which was a rematch of last year's championship battle. Brookwood was paced by the league's highest scoring quintet and were lead by Jeff Trimble and John Van Every who both averaged better than 20 points per game. The Salem Falcons supported a tough defense plus a pattern type game and balanced scoring.

Salem surprised Brookwood by playing a triangle and two defense and were able to jump to a 6 to 1 lead early in the game. Brookwood fought back and at the end of the first half had narrowed the margin to two points. The teams battled on even terms in the third quarter and at the end of the quarter, Salem led by a 16-14 count. Midway through the final stanza, Salem increased its lead to six points which proved to be the margin of victory.

Brookwood fought back once more and had an opportunity to send the game into overtime, in the final two seconds. Jeff Trimble, the game's high scorer, was fouled with two seconds remaining and Brookwood trailing by a 23 to 21 count. Trimble missed both attempts and Salem grabbed the rebound to assure themselves of their second consecutive West-oshia Basketball Championship. Salem Falcons have now won 20 consecutive conference games and two consecutive championships which are both records for the West-oshia Conference.

The keys to the second conference championship was the fine defensive job turned in by Jacobson, Plimts and LaMeer, who limited Trimble and Van Every to 12 and 5 points respectively. Salem dominated the defensive boards as they grabbed 24 defensive rebounds; Jacobsen and Koenecke paced the way with 9 and 8 respectively. Also fine ball handling and balanced scoring were very important in the contest.

## Edison Plans Millions For Cleaner Air

Over \$100 million of Commonwealth Edison Company's 1970-1974 \$1.95 billion construction program will be spent to provide additional facilities for cleaner air and water in Chicago and northern Illinois, according to Gordon R. Corey, Edison's finance committee chairman.

The Edison official summarized the company's environmental improvement efforts for the New York Society of Security Analysts in New York Wednesday and called nuclear power the key to Edison plans for a cleaner environment.

"In our opinion," he said, "the right way to make electricity — the clean way — the modern way — the new way is to generate it with nuclear power. In the last analysis, electric power generation must be switched from combustion to nuclear energy. This is why we have taken the nuclear route and have progressed farther along that route than any other company."

He added that the five million kilowatts of nuclear generating facilities the company is building at three separate stations is about one-half of the present Edison system capacity. "By 1973," he said, "40 per cent. of our kilowatt-hours will be from nuclear units — without an ounce of fly ash or a whiff of sulfur dioxide."

Corey also cited immediate steps being taken by the company to curtail pollution. They include:

—Installing more gas and oil-fired peaking capacity than anyone else in the country, including 1,240,000 kilowatts in service and 380,000 kilowatts on order.  
—Burning all the natural gas obtainable — more than three million tons this year.  
—More retirements of coal-fired units and sharp reduction in Chicago area coal use.

—The retirement of Northwest station, a coal-fired plant, this year.  
—Conversion of Ridgeland station from coal to low-sulfur oil at a cost of \$7,000,000.

He noted, however, that the company is having trouble getting permission to import the oil needed for the Ridgeland conversion. "We applied to the Department of Interior in November," he said. "Our people have spent weeks and weeks in Washington trying to get this through. No action yet."

# Local Government And The Constitution

(Sixth in a series of articles on the significance of local government today. This one reviews constitutional relationships to local governments.)

A great opportunity to modernize Illinois government faces the delegates to the Illinois Constitutional Convention and the voters of the state during 1970.

The opportunity could become a wasted one. It depends upon the way in which a new Illinois Constitution is organized, drafted,

written and presented. And, it depends upon the way in which the constitutional "reformer" treats the basic institutions of Illinois government.

Those who talk reform may already be establishing an advance risk. Reform suggests that something is substantially wrong with the constitution which exists. That something is improper or evil.

This is not necessarily so. The present Illinois Constitution is not a bad document. Its drafters were

high minded and forward-looking men. The 1870 document wiped away evils which the Constitution of 1848 had allowed—particularly relating to excesses in financing and debts accrued by governmental units throughout the state.

Now, it is said, restrictions on debt limits are too tight. This may be so; but the writers of the new constitution must be careful not to allow the fiscal looseness which the 1848 Constitution permitted.

Similarly, the 1848 Constitution strengthened local government in

Illinois. The 1870 document reaffirmed this concept. Both supported the township government concept, although subject to the will of the people.

Now, there is talk that local governments, and particularly townships, are expendable. Again, the framers of a 1970 Constitution should examine history with utmost care before blue penciling the strength and vitality of any local government.

Some delegates to the 1970 constitutional convention talk about

a wide variety of inclusions to be made in the new document. They begin to sound like state legislators, passing laws instead of writing basic principles of state government. One valid criticism of the 1870 Constitution is that there is more in it than necessary.

When considering a new constitution, it helps to observe what happened to constitutional "reform" in other states during recent years.

A few years ago, Pennsylvania reconstructed its Constitution of 1873. The new version retained the fundamental provisions of the old, with changes applied by sections, only where changes were considered vitally necessary. No attempt was made to rewrite the 1873 document in entirety. Major surgery was avoided because minor surgery was sufficient. The new constitution received prompt handling and quick approval of the voters.

On the other hand, in 1967, Maryland attempted constitutional reform with a vengeance. The delegates drastically rewrote an 1866 document, in classic fashion. They hailed it as a model for contemporary America.

"But the delegates to the Maryland constitutional convention just lost touch with the real world," said Professor Joseph P. Pisciotte, of the University of Illinois Institute for Government and Public Affairs. "Their new constitution was too progressive — too much for the people to accept."

The major fault — labeled as "disastrous" to the passage of the new constitution — was its sponsorship of metropolitan government in Maryland. This eliminated many units of local government, and substituted legislative districts with administrative units staffed by appointed instead of elected officials.

"No good," said the people of Maryland. They voted down the new constitution by a 4 to 3 margin.

New York State also suffered a constitutional fiasco in 1967. They, like Illinois, elected a big delegation to rewrite their 1894 document. They labored for eight months, spent \$15,000,000, polioed and bickered, and came away with a mess. The people of New York promptly rejected the waste — and costly effort.

"In Illinois, there is no apparent mood for radical changes in the constitution. Nor will the people tolerate too much constitutional politicking. They want things written into it such as fiscal responsibility, home rule and strong local governments. They want protection of individual rights, without bias for any group."

A constitution is a document that lays the ground rules for all governmental action. It tells the people what they can expect from their government — their rights, privileges and restrictions. It establishes and defines the functions of the officials who run the government. It places limitations wherever they belong.

This is the framework of government. It is the contract between the people and its government. It must be a good contract, or the people need not accept it.

Residents of Lake County, along with chiefs of police, civic organizations, social action groups, etc., are being invited to send nominations to a newly-named committee to recognize persons who have demonstrated excellence in performance in the fields of law enforcement, juvenile work, probation, social workers, crime prevention, correction or adjudication.

The Illinois Law Enforcement Commission announced the statewide recognition program through the Lake County Law Enforcement Assistance Planning Committee, Associate Circuit Judge Harry D. ## Witnesses Will Hold Convention

Jehovah's Witnesses in the Antioch area will have their scheduled convention for the weekend of March 13-15. The local religious group will attend the first of their 1970 conventions on these dates.

While previously the congregation would rent various high schools in the Chicago and suburban areas, the March gathering will be held in the former Highland theatre, 79th and Ashland, Chicago. The theatre was recently purchased by Jehovah's Witnesses and after months of renovation, will be used almost continually for religious conventions.

David Mitchell, presiding minister, said that the assembly theme, "Sacrifices That Please God," will be accentuated through a series of talks, skits, and discussions. All bearing on the Christian ministry. Jehovah's Witnesses, throughout the world, as well as in Antioch, Richmond, Springfield, Grove, etc., have as the center of their worship the door-to-door ministry.

Mitchell cited, as an example of Jehovah's Witnesses' concern for the spiritual welfare of others, the preaching work carried on in 203 countries. "It may sound unbelievable, but over 239,700,000 hours were devoted to helping others who were not Jehovah's witnesses through the ministry last year."

"Each week nearly 1,100,000 home Bible studies were conducted free of charge. We feel that the effort is necessary because Bible principles will prove to be a true guide in a world of changing morals."

Among those who are expected to attend are Mrs. Ellen Pieper, 337 Bridgewood; Mrs. Virginia Meyer, son Matthew and daughters, Rowena and Lellani; Mr. and Mrs. David Mitchell, 113 Oakwood Drive; and Mr. and Mrs. Ralph Dowell, all of Antioch. Charles Sinutko, district supervisor of Jehovah's Witnesses in the Midwest, will deliver the high-light address, Sunday, March 15, 3 p.m. His subject will be "Withstanding the Pressures of Our Day."
